- 500 World-Renowned Brands: Extensive Global Brand Partnerships
- GOTS/GRS Certification: A Series of Products Such as Organic Cotton, Recycled Polyester, and Tencel Fiber
- 3 Million+ Monthly Production

Q&A

MOQ:

Regular cotton - 300 pairs per size

Organic cotton - 1,000 pairs (1K no certification, need to charge 110usd if want; 5k can get it for free)

Bamboo cotton - 1,000 pairs

In terms of different techniques:

-Embroidery - one colour and multi-colour

-Intarsia - one/two colour motif or text, one colour AOP and multi colour AOP

-Tipping or stripes - multi stripes and tipping

-Tie dye- one colour and multi-colour

For grip on the bottom:

We have both silicone and PVC options. Silicone is relatively soft and sticky. However, it doesn't hold its shape as well as PVC, and its edges aren't as smooth. To be honest, for socks, which are consumables, the usage cycle and functionality are essentially the same. But silicone is about \$0.1 more expensive per pair than PVC.

Packing trims:

We can supply hangtag, patch or stickers if you want.

For shipping:

-DHL or Fedex: 3-5 days

- Air freight with door-to-door service: Goods will be signed for in around 8 - 12 working days.

- Rail freight: Goods can be picked up 20 - 30 days after the train departs.

- Sea freight: Goods can be picked up around 35 - 50 days after the ship sets sail.
